(Company) between its Customers and overseas points as listed herein. Service is furnished subject to the availability of facilities and subject to transmission, atmospheric and like limitations.

The Company's services are offered from all originating locations throughout the Mainland United States of America, Hawaii, Puerto Rico and the U.S. Virgin Islands.

4 Explanation of Symbols

The following symbols are used for their indicated purpose and will appear in the margin when used.

- (C) **To signify changed listing, rule, or condition, which may affect rates or charges.**
- (D) **To signify discontinued material, including listing, rate, rule, or condition.**
- (I) **To signify an increase.**
- (M) **To signify material relocated from or to another part of tariff schedule with no change in text, rate, rule or condition.**
- (N) **To signify new material including listing, rates, rule or condition.**
- (R) **To signify reduction.**

5 Tariff Format

When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross-reference to the current revision number. When new sheets are added, the check sheet is changed to reflect the revision. An asterisk (*) designates all revisions made in a given filing. There will be no other symbols used on this sheet if this is the only kind of change made to it (i.e., the format, etc. remains the same, just revised revision levels on some sheets). The tariff user should refer to the latest check sheet to determine if a particular sheet is the most current on file with the Commission.

5.1 Sheet Numbering

Sheet numbers appear in the upper right corner of each sheet. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 5 and 6 would be sheet 5.1.

5.2 Sheet Revision Numbers

Revision numbers appear in the upper right corner of each sheet. These numbers are used to determine the most current sheet revision on file with the Commission. For example, the 2nd revised sheet 5 cancels the 1st revised sheet 5. Because of various suspension periods, deferrals, etc., the Commission follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff sheet in effect. Consult the Check Sheet for the sheets currently in effect.

5.3 Paragraph Numbering Sequence

There are multiple levels of paragraph coding. Each level of coding is subservient to its next higher level. For example:

- 3.
- 3.1.
- 3.1.1.
- 3.1.1.1.

6 Explanation of Abbreviations

- LATA** Local Access and Transport Area. A geographic area established by the US District Court for the District of Columbia in Civil Action No. 17-49, within which a Local Exchange Company provides communications services.
- LEC** Local Exchange Company.
- PIC** Presubscribed Interexchange Carrier

Any objections to billed charges must be promptly reported to the Company or its billing agent. Adjustments to Customer's bills shall be made to the extent that circumstances exist which reasonably indicate that such changes are appropriate.

8.6.3.2 The Company reserves the right to bill any and all applicable taxes and fees in addition to normal rates and charges for services provided to the Customer. Taxes and fees include, but are not limited to: federal excise tax, state, county and municipal gross receipts tax and federal and state mandated fees. Such taxes and fees are in addition to rates as quoted in this tariff and will be itemized separately on Customer billing advices.

8.6.3.3 The Company bills by issuing a debit to the Customer's registered credit card and sending a notification, via E-Mail, to the Customer's registered E-Mail address. The end of Billing Period notification contains the complete billing advice for the entire Billing Period. Customers may, at any time, obtain the details of all charges for the current Billing Period up through the previous day through Customer Service.

8.6.4 Rejected Credit Card Debit

8.6.4.1 The Company reserves the right to assess a charge of \$25.00 whenever a credit card debit presented for payment of service is not accepted by the institution which issued the credit card. At the option of the Company, this charge may be waived, because of extenuating circumstances (e.g., bank error).

8.6.4.2 The Company will notify the Customer (see 8.2) when the Company learns of a rejected credit card debit. If a guaranteed form of payment is not received within fourteen (14) days after the debit is applied to the credit card, the payment will be considered late.

8.6.4.3 The Company urges Customers to contact Customer Service for deferment (see 8.6.2.3) if they know a credit card debit will be rejected.

8.6.5 Late Payment Fees

8.6.5.1 A late payment charge of one and one-half percent (1.5%) will be applied to charges not paid by their due date. The late payment charge will not be applied to previous late payment charges that have been assessed but not paid for, but will apply to the accumulated services for which the Customer is in arrears. Late payment charges will be applied without discrimination.
